

# CONTINUOUS GLUCOSE MONITORS

## CONTINUOUS GLUCOSE MONITORS (CGM)

### CHECKLIST/MEDICAL REQUIREMENTS

Please include the following:

1. A completed Face-to-Face exam (*see medical record documentation requirements below*)
2. A completed 5 Element (*Home Health Solutions Continuous Glucose Monitor Order Form*)

### MEDICAL RECORD REQUIREMENT FOR CONTINUOUS GLUCOSE MONITOR

Medical records should include:

1. Patient has diabetes, **AND**
2. Patient is insulin treated with multiple (3 or more) daily injections of insulin, or a Medicare covered continuous subcutaneous infusion pump (CSII), **AND**
3. Patient's insulin treating regime required frequent adjustments by the beneficiary on the basis of blood glucose monitor or Continuous Glucose Monitor testing results, **AND**
4. An in-person diabetic evaluation within 6-months of ordering the Continuous Glucose Monitor to determine and document that the above criteria are met, **AND**
5. A subsequent in-person evaluation every 6 months to verify and document daily use of the Continuous Glucose Monitor and assess adherence to the diabetes treatment plan.
