ADDITIONAL DOCUMENTATION THAT MUST BE ADDRESSED IN THE MEDICAL RECORD

- Does the patient have a mobility impairment that prevents them from participating in one or more mobility-related activity of daily living (MRADL) in the home (MRADL includes using the restroom, eating, dressing, grooming or bathing in the customary locations)?
 - Does the patient have a mobility limitation that places the patient at a reasonably increased risk of morbidity or mortality when they attempt to perform MRADL?
 - Does the patient have a mobility limitation that prevents them from completing MRADL within a reasonable time frame?
 - Is the patient able to safely use a walker?
 - Will a walker allow the patient to overcome their mobility impairment sufficiently that they can resume the MRADL?
 - Does the patient weigh more than 300 pounds?
 - Is the patient at least 72 inches (6 feet) tall? (only if billing for extenders)
